

IEE/WERC  
SUMMER ENVIRONMENTAL ACADEMY  
JULY 16-20, 2007  
NEW MEXICO STATE UNIVERSITY  
LAS CRUCES, NEW MEXICO

***Renew yourself; spend time in scientific environmental awareness activities!***

**What is the Academy?**

Presenting our 16<sup>th</sup> year of summer outreach, the academy is an experience in scientific/environmental discovery, designed to provide student and teacher opportunities to conduct educational investigations. Teams will participate with scientific mentors in a variety of site visits and activities to increase environmental awareness through hands-on research.

**Why Participate?**

- **Teachers** gain professional development in environmental teaching skills and network with state and national scientific professionals.
- **High School Students** experience involvement in real world issues and gain opportunities to formulate their college and future career path.

**What will participants learn?**

***Applied Alternative/Renewable Energies***

- Water Resources
- Wind Power
- Bio-fuels
- Solar

This program provides for activity travel, lunches & refreshments and curricula materials. For details see our web site at [www.werc.net](http://www.werc.net). Click on Summer Academy under New & Noteworthy Links and be sure to check out the El Paso Electric Scholarship opportunities.

**Deadline for Registration and Fees is June 1, 2007.** For information contact Bryan Swain [bswain@nmsu.edu](mailto:bswain@nmsu.edu) or Barbara Valdez [bcvaldez@nmsu.edu](mailto:bcvaldez@nmsu.edu) or call the WERC offices toll free at 800.523.5996. <http://iee.nmsu.edu>.
